DISCLAIMER

Forward-Looking Information

This presentation contains forward-looking statements. We intend such forward-looking statements to be covered by relevant safe harbor provisions for forward-looking statements (or their equivalent) of any applicable jurisdiction, including those contained in Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). All statements other than statements of historical facts contained in this presentation may be forward-looking statements. In some cases, you can identify forward-looking statements by terms such as "may," "will," "should," "expects," "plans," "anticipates," "could," "intends," "targets," "projects," "contemplates," "believes," "estimates," "forecast," "predicts," "potential" or "continue" or the negative of these terms or other similar expressions. Forward-looking statements contained in this presentation include, but are not limited to statements regarding our future results of operations and financial position, future organic growth, anticipated results for the fiscal year 2024, industry and business trends, business strategy, plans (including productivity enhancements and cost reductions, and our ability to refinance or meet our debt obligations), market growth, position and our objectives for future operations, including our ability to maintain relationships with customers and continue to renew customer lease agreements or the potential benefit of the terms of such renewals or our ability to grow our business through acquisitions, the impact (illustrative or otherwise) of the new agreements with MTN Nigeria (including certain rebased fee components) on our financial results, the impact of currency and exchange rate fluctuations (including the devaluation of the Naira) and other economic and geopolitical factors on our future results and operations, the outcome and potential benefit of our strategic review, and our objectives for future operations. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our business, financial condition and results of operations. Forward-looking statements involve known and unknown risks, uncertainties and other important factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements, including, but not limited to: non-performance under or termination, non-renewal or material modification of our customer agreements; volatility in terms of timing for settlement of invoices or our inability to collect amounts due under invoices; a reduction in the creditworthiness and financial strength of our customers; the business, legal and political risks in the countries in which we operate; general macroeconomic conditions in the countries in which we operate; changes to existing or new tax laws, rates or fees foreign exchange risks, particularly in relation to the Nigerian Naira, and/or ability to hedge against such risks in our commercial agreements or to access U.S. Dollars in our markets; the effect of regional or global health pandemics, geopolitical conflicts and wars, and acts of terrorism; our inability to successfully execute our business strategy and operating plans, including our ability to increase the number of Colocations and Lease Amendments on our Towers and construct New Sites or develop business related to adjacent telecommunications verticals (including, for example, relating to our fiber businesses in Latin America and elsewhere) or deliver on our sustainability or environmental, social and governance (ESG) strategy and initiatives under anticipated costs, timelines, and complexity, such as our Carbon Reduction Roadmap (and Project Green), including plans to reduce diesel consumption, integrate solar panel and battery storage solutions on tower sites and connect more sites to the electricity grid; our reliance on third-party contractors or suppliers, including failure, underperformance or inability to provide products or services to us (in a timely manner or at all) due to sanctions regulations, supply chain issues or for other reasons; our estimates and assumptions and estimated operating results may differ materially from actual results; increases in operating expenses, including increased costs for diesel; failure to renew or extend our ground leases, or protect our rights to access and operate our Towers or other telecommunications infrastructure assets; loss of customers; risks related to our indebtedness; changes to the network deployment plans of mobile operators in the countries in which we operate; a reduction in demand for our services; the introduction of new technology reducing the need for tower infrastructure and/or adjacent telecommunication verticals; an increase in competition in the telecommunications tower infrastructure industry and/or adjacent telecommunication verticals; our failure to integrate recent or future acquisitions; the identification by management of material weaknesses in our internal control over financial reporting, which could affect our ability to produce accurate financial statements on a timely basis or cause us to fail to meet our future reporting obligations; increased costs, harm to reputation, or other adverse impacts related to increased intention to and evolving expectations for environmental, social and governance initiatives; our reliance on our senior management team and/or key employees; failure to obtain required approvals and licenses for some of our sites or businesses or comply with applicable regulations; inability to raise financing to fund future growth opportunities or operating expense reduction strategies; environmental liability; inadequate insurance coverage, property loss and unforeseen business interruption; compliance with or violations (or alleged violations) of laws, regulations and sanctions, including but not limited to those relating to telecommunications regulatory systems, tax, labor, employment (including new minimum wage regulations), unions, health and safety, antitrust and competition, environmental protection, consumer protection, data privacy and protection, import/export, foreign exchange or currency, and of anti-bribery, anti-corruption and/or money laundering laws, sanctions and regulations; fluctuations in global prices for diesel or other materials; disruptions in our supply of diesel or other materials; legal and arbitration proceedings; our reliance on shareholder support (including to invest in growth opportunities) and related party transaction risks; risks related to the markets in which we operate, including but not limited to local community opposition to some of our sites or infrastructure, and the risks from our investments into emerging and other less developed markets; injury, illness or death of employees, contractors or third parties arising from health and safety incidents; loss or damage of assets due to security issues or civil commotion; loss or damage resulting from attacks on any information technology system or software; loss or damage of assets due to extreme weather events whether or not due to climate change; failure to meet the requirements of accurate and timely financial reporting and/or meet the standards of internal control over financial reporting that support a clean certification under the Sarbanes Oxley Act; risks related to our status as a foreign private issuer; and the important factors discussed in the section titled "Risk Factors" in our Annual Report on Form 20-F for the fiscal year ended December 31, 2023. The forward-looking statements in this presentation are based upon information available to us as of the date of this presentation, and while we believe such information forms a reasonable basis for such statements, such information may be limited or incomplete, and our statements should not be read to indicate that we have conducted an exhaustive inquiry into, or review of, all potentially available relevant information. These statements are inherently uncertain, and investors are cautioned not to unduly rely upon these statements. You should read this presentation and the documents that we reference in this presentation with the understanding that our actual future results, performance and achievements may be materially different from what we expect. We qualify all of our forward-looking statements by these cautionary statements. Additionally, we may provide information herein that is not necessarily "material" under the federal securities laws for SEC reporting purposes, but that is informed by various ESG standards and frameworks (including standards for the measurement of underlying data), and the interests of various stakeholders. Much of this information is subject to assumptions, estimates or third-party information that is still evolving and subject to change. For example, we note that standards and expectations regarding greenhouse gas (GHG) accounting and the processes for measuring and counting GHG emissions and GHG emissions reductions are evolving, and it is possible that our approaches both to measuring our emissions and any reductions may be at some point, either currently or in future, considered by certain parties to not be in keeping with best practices. In addition, our disclosures based on any standards may change due to revisions in framework requirements, availability of information, changes in our business or applicable government policies, or other factors, some of which may be beyond our control. These forward-looking statements speak only as of the date of this presentation. Except as required by applicable law, we do not assume, and expressly disclaim, any obligation to publicly update or revise any forward-looking statements contained in this presentation, whether as a result of any new information, future events or otherwise.

Use of Non-IFRS financial measures

Certain parts of this presentation contain non-IFRS financial measures, including but not limited to Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Levered Free Cash Flow ("ALFCF"), ALFCF Cash Conversion Rate, Return on Invested Capital ("ROIC"). The non-IFRS financial information is presented for supplemental informational purposes only and should not be considered a substitute for financial information presented in accordance with IFRS and may be different from similarly titled non-IFRS measures used by other companies. Our management uses Adjusted EBITDA, Adjusted EBITDA Margin and ROIC as an indicator of the operating performance of our core business. We believe that Adjusted EBITDA, Adjusted EBITDA Margin and ROIC are useful to investors and are used by our management for measuring profitability and allocating resources, because they exclude the impact of certain items which have less bearing on our core operating performance. We believe that utilizing Adjusted EBITDA, Adjusted EBITDA Margin and ROIC allows for a more meaningful comparison of operating fundamentals between companies within our industry by eliminating the impact of capital structure and taxation differences between the companies. Our management uses ALFCF and ALFCF Cash Conversion Rate to assess the long-term, sustainable operating liquidity of our business. Starting in the third quarter of 2023, we replaced RLFCF with ALFCF. As a result, we have re-presented the 1Q23 and 2Q23 measures to be on a consistent basis with the ALFCF presented for the subsequent periods. Unlike RLFCF, ALFCF and ALFCF Cash Conversion Rate excludes the reversal of movements in the net loss allowance on trade receivables and impairment of inventory to better reflect the liquidity position in each period. ALFCF and ALFCF Cash Conversion Rate only includes the cash costs of business combination transaction costs, other costs and other income. There is otherwise no change in the definition or calculation of this metric for the periods presented as a result of the name change. Non-IFRS measures are frequently used by securities analysts, investors and other interested parties in their evaluation of companies comparable to us, many of which present non-IFRS measures when reporting their results. Non-IFRS financial measures are used by different companies for differing purposes and are often calculated in ways that reflect the circumstances of those companies. You should exercise caution in comparing non-IFRS financial measures as reported by us to non-IFRS financial measures as reported by other companies. These metrics have limitations as analytical tools, you should not consider such financial measures in isolation from, or as a substitute analysis for, our results of operations as determined in accordance with IFRS. These metrics are not measures of performance or, in the case of ALFCF and ALFCF Cash Conversion Rate, liquidity under IFRS and you should not consider Adjusted EBITDA, Adjusted EBITDA Margin or ROIC for the period as an alternative to profit/(loss) or ALFCF and ALFCF Cash Conversion Rate as an alternative to cash from operations, or other financial measures determined in accordance with IFRS. Non-IFRS financial measures described in this presentation are unaudited and have not been prepared in accordance with IFRS or any other generally accepted accounting principles. In addition, the presentation of these measures is not intended to and does not comply with the reporting requirements of any regulatory authority and will not be subject to review by a regulatory authority; compliance with such requirements may require us to make changes to the presentation of this information. Definitions and reconciliations of these non-IFRS measures to the most directly comparable IFRS measures are provided in the Appendix and Glossary as applicable.

The presentation of LTM Pro Forma Adjusted EBITDA should not be construed as an inference that our future results will be consistent with our "as if" estimates. These "as if" estimates of potential operating results were not prepared in accordance with IFRS or the pro forma rules of Regulation S-X promulgated by the Securities and Exchange Commission (the "SEC"). Furthermore, while LTM Pro Forma Adjusted EBITDA gives effect to management's estimate of a full year of Adjusted EBITDA in respect of acquisitions completed in the applicable period, LTM Pro Forma Adjusted EBITDA does not give effect to any Adjusted EBITDA in respect of such acquisitions for any period prior to such applicable period. As a result, the LTM Pro Forma Adjusted EBITDA across different periods may not necessarily be comparable.

This presentation also includes certain forward-looking non-IFRS financial measures, including Adjusted EBITDA and ALFCF. We are unable to provide a reconciliation of such forward-looking non-IFRS financial measures without an unreasonable effort due to the uncertainty regarding, and the potential variability of, the applicable costs and expenses that may be incurred in the future, including, in the case of Adjusted EBITDA, share-based payment expense, finance costs, insurance claims, net movement in working capital, other non-operating expenses, and impairment of inventory, and in the case of Adjusted Levered Free Cash Flow, cash from operations, net working capital movements and maintenance capital expenditures, all of which may significantly impact these non-IFRS measures. Accordingly, investors are cautioned not to place undue reliance on this information.

Rounding

Certain numbers, sums, and percentages in this presentation may be impacted by rounding.

Use of Market and Industry Data

We obtained the industry, market and competitive position data and forecasts in this presentation from our own internal estimates and research as well as from publicly available information, industry and general publications and research conducted by third parties, including Analysys Mason Limited (Analysys Mason), delivered in April 2024 for use in this presentation. Such market data is derived from publicly available information released by independent industry analysts and other third-party sources, as well as data from internal research, and are based on assumptions made by us upon reviewing such data, and our experience in, and knowledge of, such industry and markets, which we believe to be reasonable. Analysys Mason's third-party data is also prepared on the basis of information provided and views expressed by mobile operators, tower operators and other parties (including certain views expressed and information provided or published by individual operators, service providers, regulatory bodies, industry analysts and other third-party sources of data). Although Analysys Mason has obtained such information from sources it believes to be reliable, neither we nor Analysys Mason have verified such information. This information involves a number of assumptions and limitations, and you are cautioned not to give undue weight to these estimates, as there is no assurance that any of them will be reached. Forecasts and other forward-looking information obtained from these sources and from our and Analysys Mason's estimates are subject to the same qualifications and uncertainties as the other forward-looking statements in this presentation and as described under "Forward-Looking Information." These forecasts and other forward-looking information are subject to uncertainty and risk due to a variety of factors which could cause results to differ materially from those expressed in the forecasts or estimates from independent third parties (including Analysys Mason) and us.

PRESENTING TODAY

Sam Darwish

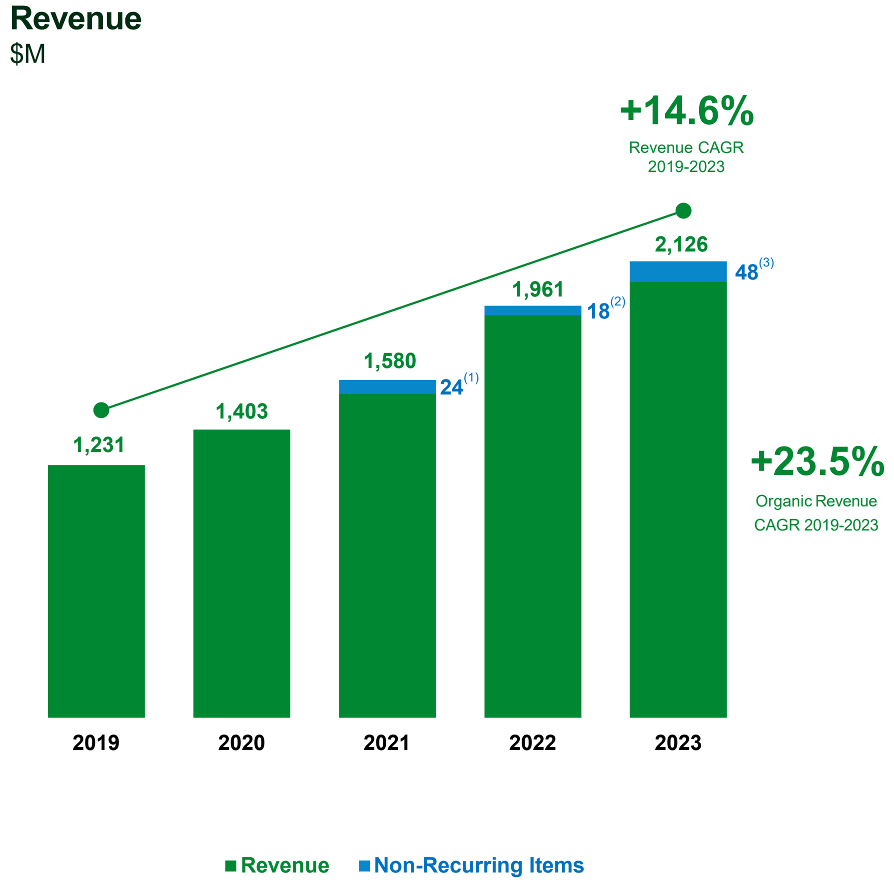
Chairman & CEO

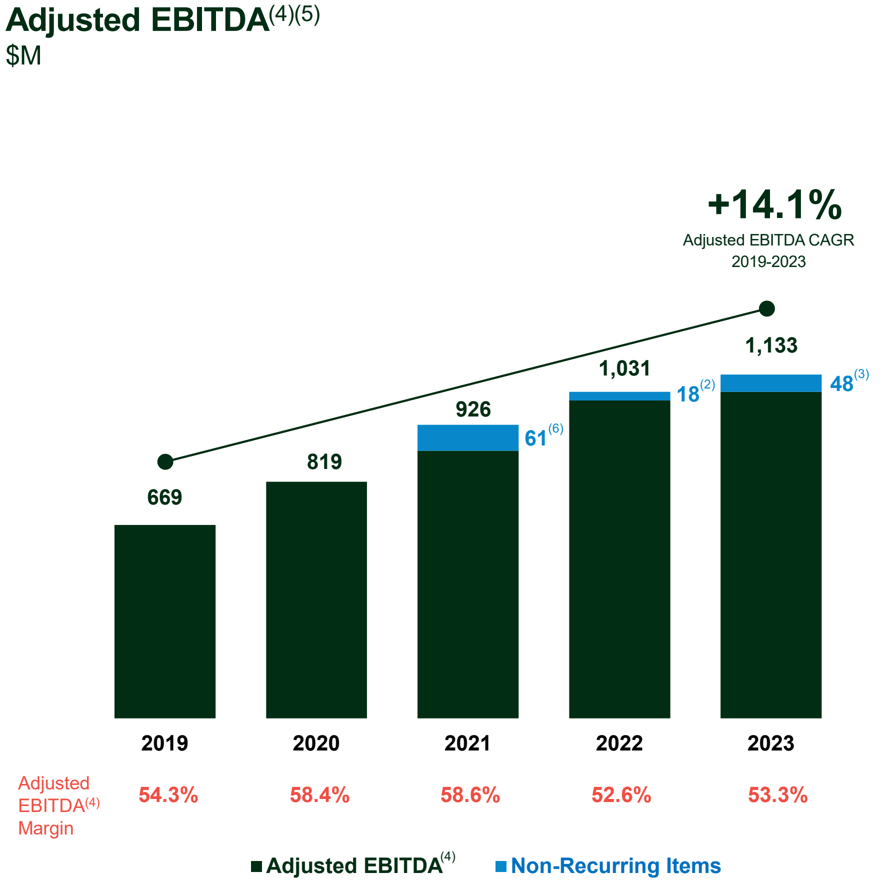
Steve Howden

Executive Vice President & CFO

IHS TRACK RECORD

One of the world's largest independent and multinational owners, operators, and developers of shared communications infrastructure

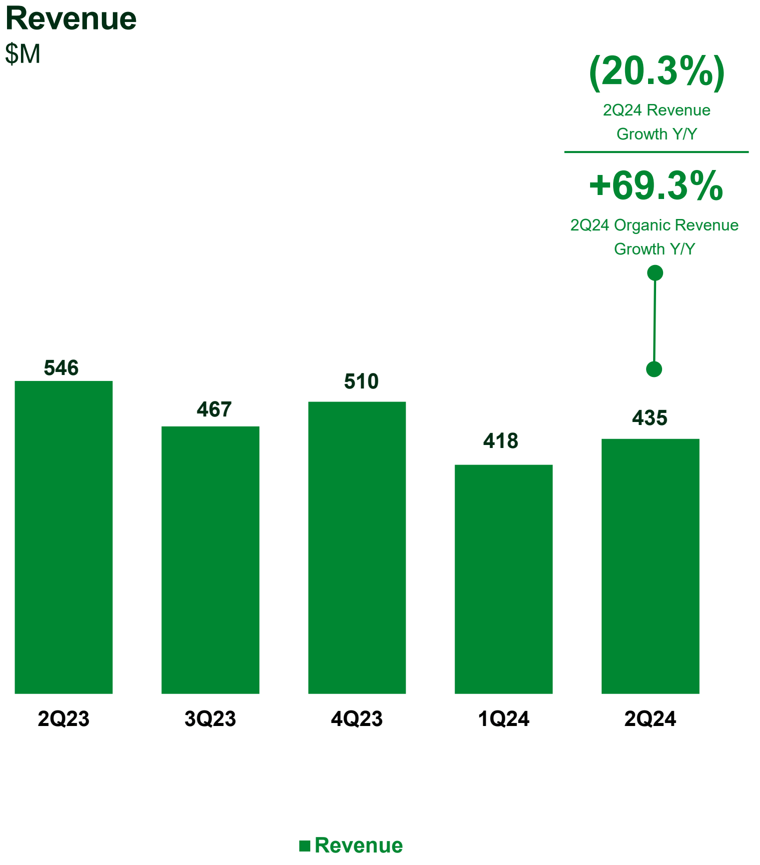


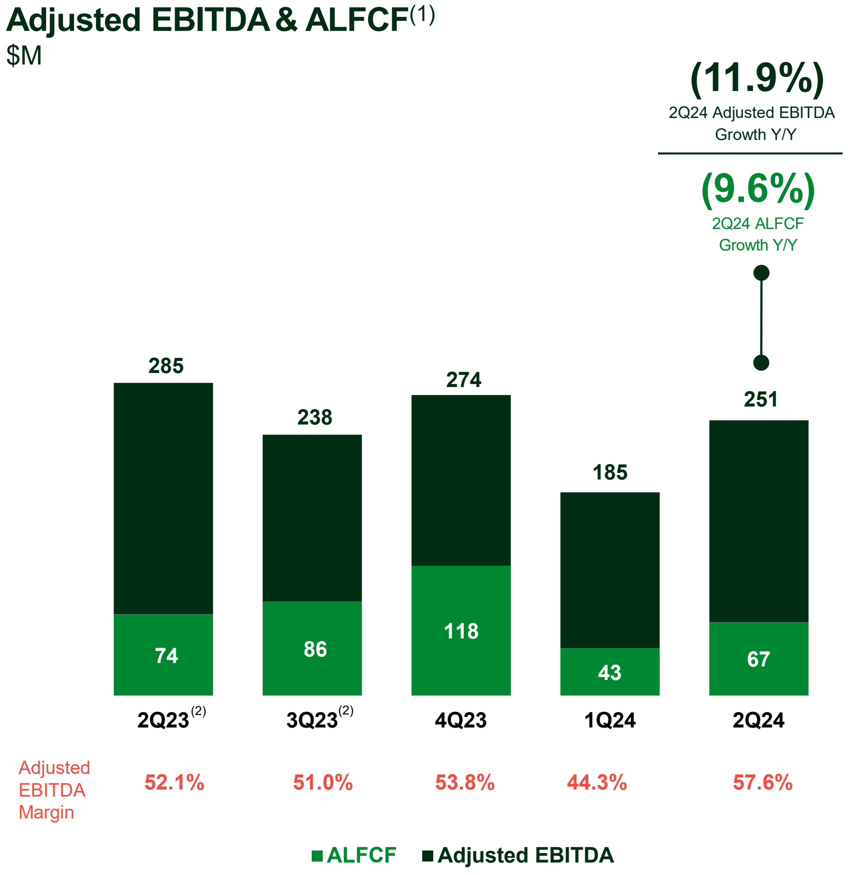


- Capitalize on significant growth opportunities in existing markets
- Optimize utilization of existing assets
- Consolidate towers globally in new and existing markets
- Reinforce market positions through innovative solutions and expand the value chain
- Drive attractive profitability and returns to shareholders

(1) 2021 Revenue includes $24M of one-off revenue from two key customers in Nigeria having reached agreement on certain contractual items
(2) 2022 Revenue and Adjusted EBITDA include $18M of one-off revenue from a key customer in Nigeria having reached agreement on certain contractual items
(3) 2023 Revenue and Adjusted EBITDA include $48M of one-off revenue as adjusted for withholding tax from our smallest key customer in Nigeria for services previously provided but for which revenue had not been recognized
(4) Adjusted EBITDA and Adjusted EBITDA Margin are measures not presented in accordance with IFRS. Please refer to the Appendix for a reconciliation of (loss)/income for the period, the most directly comparable IFRS measure to Adjusted EBITDA and Adjusted EBITDA Margin
(5) 2021 is updated for the provisional purchase price allocation included in the 3Q22 results (refer to our 3Q22 financial results furnished to the SEC on Form 6-K). 2022 is updated for the provisional purchase price allocation included in the 2Q23 results (refer to our 2Q23 financial results furnished to the SEC on Form 6-K)
(6) 2021 Adjusted EBITDA include $24M of one-off revenue from two key customers in Nigeria having reached agreement on certain contractual items, and a reversal of loss allowance on trade receivables of $37M following completion of a debt settlement with one key customer in Nigeria

2Q24 PERFORMANCE





- In 2Q24, constructed 207 towers, added net 385 tenants, and added net 1,566 lease amendments
- 2Q24 Revenue of $435M increased by 4% Q/Q
- 2Q24 Revenue of $435M decreased (20.3%) (organic +69.3%) Y/Y
  - USD:NGN devalued by 64% from 508 in 2Q23 to 1,392 in 2Q24, on average
  - Equates to $478M headwind Y/Y from the NGN devaluation
- FX impact on Revenue Q/Q (all currencies)
  - $19M headwind ($15M from NGN)
- 2Q24 Adjusted EBITDA of $251M (margin 57.6%) increased by 35% Q/Q
  - 2Q24 Adjusted EBITDA of $251M (margin 57.6%) decreased (11.9%) Y/Y
- 2Q24 ALFCF increased by 56% Q/Q
  - 2Q24 ALFCF of $67M decreased (9.6%) Y/Y

(1) Starting in 3Q23, we replaced “Recurring Leveraged Free Cash Flow” (RLFCF) with “Adjusted Levered Free Cash Flow” (ALFCF) which, unlike RLFCF, only includes the cash costs of business combination transaction costs, other costs and other income and excludes the reversal of movements in the net loss allowance on trade receivables and impairment of inventory to better reflect the liquidity position in each period. There is otherwise no change in the definition or calculation of this metric for the periods presented as a result of the name change. ALFCF is a measure not presented in accordance with IFRS. Please refer to the Appendix for a reconciliation of cash flows from operating activities for the period, the most directly comparable IFRS measure to ALFCF. As a result, we have re-presented the 2Q23 measures to be on a consistent basis with the ALFCF presented for the subsequent periods

(2) Re-presented to reflect an adjustment related to the accounting treatment of foreign exchange on goods in transit in Nigeria

IHS Towers of strength

HIGHLIGHTS

Strategic Review

- The review remains ongoing – firmly targeted at value-creation options
- The initial part of the review is inclusive of but not limited to:
  - Commercial progress
    - ✓ Renewed and extended contracts with MTN in Nigeria, Rwanda, South Africa, and Zambia, and with Airtel Africa in Nigeria
  - Governance improvements
    - ✓ Supported article changes at the AGM
  - Increase Adjusted EBITDA profitability and cash flow generation
    - ✓ 2Q24 actuals and implied in FY24 guidance for margin and Capex reductions
  - Disposal of certain assets with proceeds of $500M to $1B
  - Excess cash and proceeds from divestiture(s) to be primarily used to pay down debt
    - Other uses of cash may include repurchasing shares and/or introducing a dividend policy
- We will continue providing updates as we progress

Governance Progress

- At our 2024 Annual General Meeting (AGM) held on June 28, 2024, the proposals, including to amend the Company's articles of association, were voted on and approved, including:
  - declassify the board in two phases, in 2024 and 2025
  - elect directors annually, starting as of the 2026 AGM
  - reduce thresholds to nominate and remove directors
  - introduce rights for holders owning 25%+ shares to call an EGM
- The 2024 AGM voting results mark a significant development for IHS, better aligning our governance framework with that of mature U.S. listed companies

MTN Commercial Update

- All MTN tower Master Lease Agreements (MLAs) have been renewed or extended
- On August 7, 2024, renewed and extended all MLAs with MTN Nigeria through 2032, covering ~13,500 tenancies and ~23,800 lease amendments
  - Includes 1,430 out of the 2,500 sites that were due to expire at the end of 2024 and in 2025 and will now remain with IHS
- Signed renewal contracts with MTN Rwanda through April 2034
- Reached an agreement with MTN South Africa to extend contract by another two years, through 2034, and to unwind our power managed services agreement

Balance Sheet

- Actively pursuing initiatives to extend maturities, manage interest expense, and shift more debt into local currency
- $746M of available liquidity, including $300M of undrawn Group RCF (due Oct. 2026)
- In April, completed drawdown of remaining $60M balance under the Group Term Loan, for a total drawdown of $430M (due Oct. 2025)
- In June, IHS Brazil issued debentures for BRL 300M (~$54M) and I-Systems issued debentures for BRL 160M (~$29M) primarily for Capex purposes
- Expect leverage to remain within the 3.0-4.0x target range in FY24
  - 2Q24 leverage increased to 3.9x, as expected, given Jan. 2024 Naira devaluation

Nigeria

- FX market stabilized modestly
  - Average 2Q24 USD:NGN was 1,392
  - Continue to see USD availability and convergence of the official and parallel markets
- Improved USD liquidity
  - Upstreamed $81M to Group during 2Q24, and upstreamed ~$13M since the end of the quarter, for a total of $94M upstreamed YTD

Latam

- On April 30, completed the sale of our subsidiary IHS Peru S.A.C. to affiliates of SBA Communications Corporation
- Built 136 towers in Brazil during 2Q24 and 294 total YTD, as part of our ~600 BTS program in the country this year

OUR APPROACH TO SUSTAINABILITY

Sustainability Initiatives in 2Q24

Ethics and governance

- IHS Côte d'Ivoire, Nigeria, Rwanda, Zambia, and LatAm hosted the Sustainability/ESG Suppliers training, aiming to enhance suppliers' understanding of Environmental, Social, and Governance (ESG) practices.
- IHS Nigeria sponsored the Faculty of Engineering and Technology International Conference, themed "Artificial Intelligence for a Sustainable Future: Leveraging AI to Achieve the UN Sustainable Development Goals" with 170 attendees.

Environment and climate change

- IHS Zambia supported Lusaka City Council Environmental team to provide environmental awareness, sustainability and management training in local schools.
- IHS Rwanda provided a financial donation to WaterAid to improve clean water access through rainwater harvesting in schools in Nyamagabe district. The project also aimed to improve hygiene practices among 4,000 children and teachers.

Education and economic growth

- IHS Côte d'Ivoire, as a UNICEF partner, was invited to participate in the UNICEF Employment Fair to engage with students from the Korhogo region and showcase employment opportunities within the telecommunication industry.
- IHS Kuwait organized a First Aid training session for female students. The session was focused on equipping students with essential life-saving skills.

Our people and communities

- IHS Cameroon supported MTN Cameroon "30 Days of Y'ello Care: Education for Rural and Remote Communities" and attended the inauguration of a construction site for a public primary school in Bilongue.
- IHS Brazil and I-Systems participated in a donation campaign organized by Telefonica-Vivo Foundation and the NGO World Vision, to support victims of recent landslides and floods in Brazil.

Our Strategy

Four-pillar Sustainability Strategy

- Ethics and governance
- Environment and climate change
- Education and economic growth
- Our people and communities

UN Sustainable Development Goals

- Alignment with 9 of 17 Goals

2023 Sustainability Report

- Published our 6th Sustainability Report on May 28, 2024.
- This is our second report prepared in accordance with the Global Reporting Initiative (GRI) Standards

ESG Ratings

- As of January 23, 2024, IHS scored 27 (out of 100) in the 2023 S&P Global Corporate Sustainability Assessment (CSA Score)
- In May 2024, IHS received an updated ESG Risk Rating from Morningstar Sustainalytics(1). As of May 2024, our ESG Risk Rating places us in the top 13 percent of all companies assessed by Morningstar Sustainalytics in the Telecommunication Services Industry.

- 2Q24 ALFCF increased by 56% Q/Q
- 2Q24 ALFCF decreased (9.6%) Y/Y
- 2Q24 Capex decreased (73.4%) Y/Y driven by a decrease in Capex in Nigeria (primarily related to Project Green), SSA (primarily related to refurbishment), and Latam (primarily related to New Sites)

(1) Starting in 3Q23, we replaced "Recurring Leveraged Free Cash Flow" (RLFCF) with "Adjusted Levered Free Cash Flow" (ALFCF) which, unlike RLFCF, only includes the cash costs of business combination transaction costs, other costs and other income and excludes the reversal of movements in the net loss allowance on trade receivables and impairment of inventory to better reflect the liquidity position in each period. There is otherwise no change in the definition or calculation of this metric for the periods presented as a result of the name change. ALFCF is a measure not presented in accordance with IFRS. Please refer to the Appendix for a reconciliation of cash flows from operating activities for the period, the most directly comparable IFRS measure to ALFCF. As a result, we have re-presented the 2Q23 measures to be on a consistent basis with the ALFCF presented for the subsequent periods

(2) Re-presented to reflect an adjustment related to the accounting treatment of foreign exchange on goods in transit in Nigeria

2024 GUIDANCE

2024 Guidance – as revised on August 7, 2024

Metrics	Current Range	Previous Range (May 14, 2024)
Revenue	$1,670M - $1,700M	$1,700M - $1,730M
Adjusted EBITDA[(1)]	$900M - $920M	$935M - $955M
Adjusted Levered Free Cash Flow [(1)]	$250M - $270M	$285M - $305M
Total Capex	$330M - $370M no change	$330M - $370M
Consolidated Net Leverage Ratio	3.0x - 4.0x no change	3.0x - 4.0x

Key Points

Revenue Guidance

- Implies organic growth of ~48% (at the mid-point)
- Includes impact from the renewal and extension of all tower contracts with MTN Nigeria
- Excludes power pass-through revenue in South Africa 3Q24-4Q24
  - Includes $8M of power pass-through revenue YTD

Capex Guidance

- Includes ~$10M of remaining investment for Project Green

BTS Guidance

- Includes ~850 New Sites, of which ~600 in Brazil

(1) Adjusted EBITDA and Adjusted Levered Free Cash Flow (ALFCF) are forward-looking non-IFRS financial measures. We are unable to provide a reconciliation of Adjusted EBITDA and ALFCF to (loss)/income and cash from operations, respectively, for the periods presented above without an unreasonable effort, due to the uncertainty regarding, and the potential variability, of these costs and expenses that may be incurred in the future, including, in the case of Adjusted EBITDA, share-based payment expense, finance costs, and insurance claims, and in the case of ALFCF net movement in working capital and other non-operating expenses, each of which adjustments may have a significant impact on these non-IFRS measures

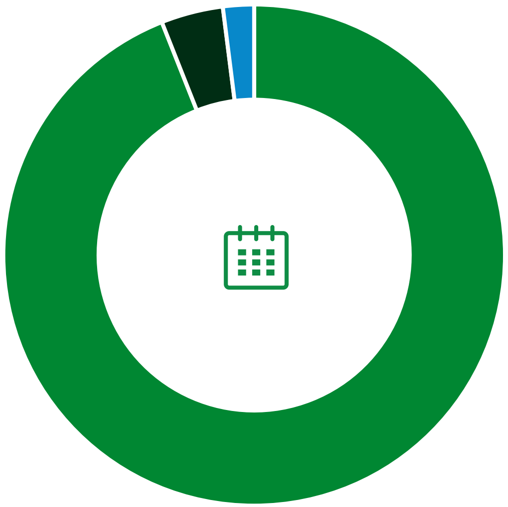
FX RESETS IMPACT ON OUR BUSINESS

FX Resets and CPI Escalators offer effective revenue protection against the impact of currency devaluation

USD FX Reset Frequency (1)

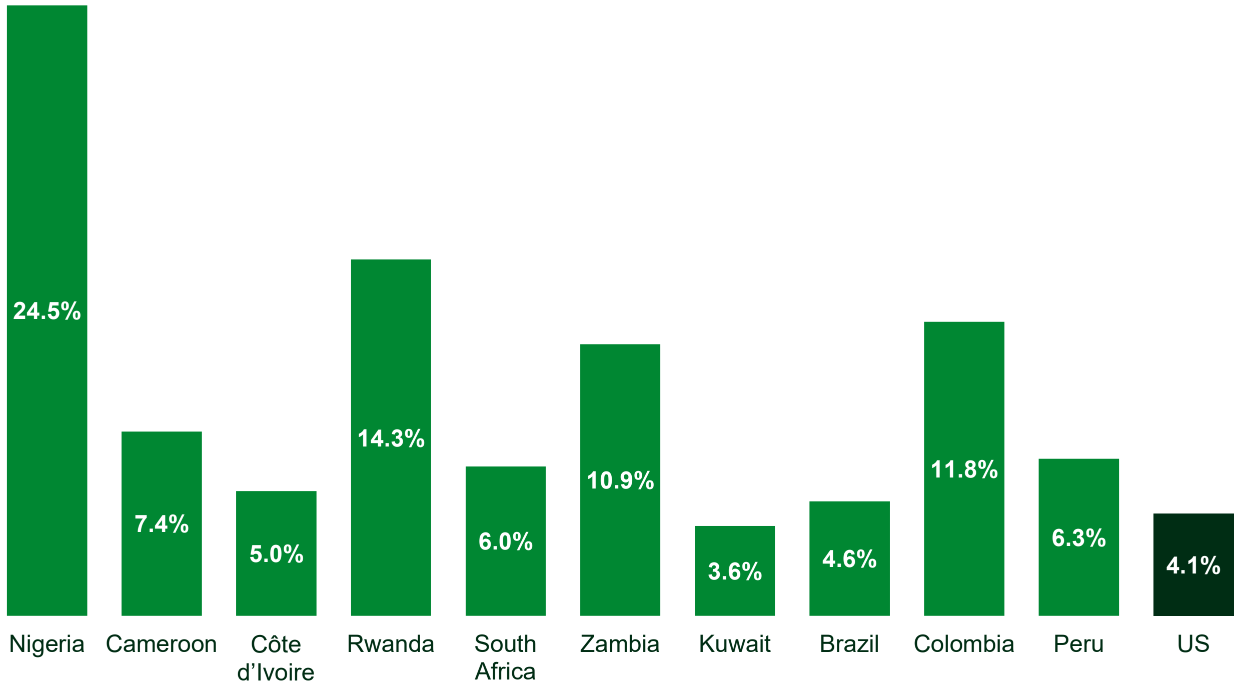


94% ▪ Quarterly

4% ▪ Monthly

2% ▪ Semi-annually

2023 CPI By Market (2)



How FX resets work

- A relevant portion of contracts is tied to a "hard currency" including USD and Euro
- We are paid in local currency, but in certain countries, the absolute amount adjusts based on the USD FX rate

Illustrative Example

- Simplistically, if the local currency devalues, the local currency portion of the invoice linked to USD would increase proportionally to keep the USD value constant, albeit with a timing lag based on frequency and applicable rates of reset
- Escalator for portion of contracts tied to USD is based on US CPI
- Frequency of FX reset varies by contract, with nearly all of USD contracted revenue resetting quarterly or sooner

(1) Based on revenue for 2Q24

(2) CPI adjustments vary across contracts and are based on rates published by local central banks and/or government agencies and can include escalation caps. Rates above provide a general illustration of CPI in markets where IHS operates and do not necessarily reflect the rate used to determine CPI escalators. Rates above are based on publicly available independent sources. Rates represent the full year average

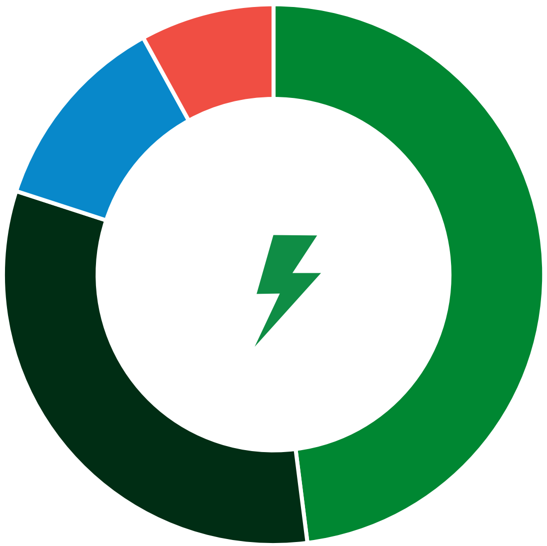
OIL IMPACT ON OUR BUSINESS

Power Solutions as at Dec 31, 2023 (1)



48% ▪ Hybrid power systems

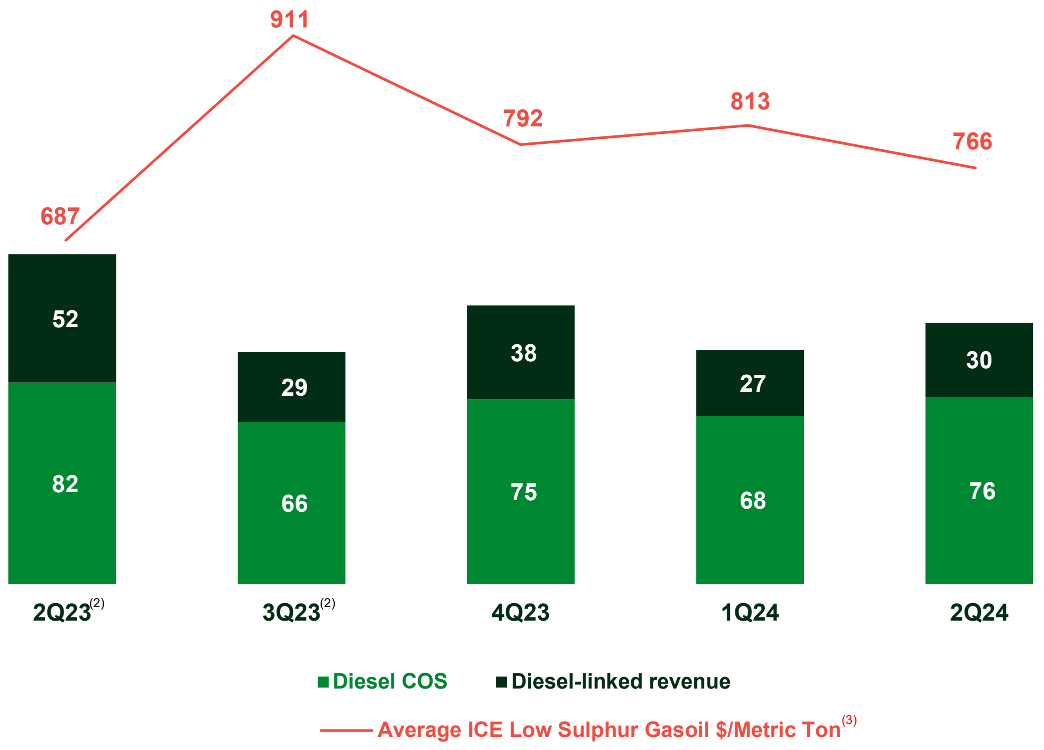
32% ▪ Grid connectivity and back up generators

12% ▪ Generator only

8% ▪ Grid or solar power and other

Diesel

$M



Oil Impact

- For the last several years, IHS has added hybrid (solar/battery) powered solutions. As part of our Carbon Reduction Roadmap, we expect to continue to upgrade a portion of towers in our portfolio, including by adding not just hybrid solutions but also grid connectivity where possible

(1) Power solution for Africa markets only excluding South Africa
(2) 2Q23, and 3Q23 diesel-linked revenue has been re-presented to reflect incremental revenue from key customers due to changes in diesel exposure effected in contracts signed in 2023

One-off items								
Adjusted EBITDA excluding one-off items	284,707	238,102	274,182	185,159	250,848			

(1) Re-presented to reflect an adjustment related to the accounting treatment of foreign exchange on goods in transit in Nigeria

(2) Finance costs consist of interest expense and loan facility fees on borrowings, the unwinding of the discount on our decommissioning liability and lease liability, realized and unrealized net foreign exchange losses arising from financing arrangements and net realized and unrealized losses from valuations of financial instruments. Finance income consists of interest income from bank deposits, realized and unrealized net foreign exchange gains arising from financing arrangements and net realized and unrealized gains from valuations of financial instruments

(3) Withholding tax primarily represents amounts withheld by customers in Nigeria and paid to the local tax authority. The amounts withheld may be recoverable through an offset against future corporate income tax liabilities in the relevant operating company. Revenue withholding tax receivables are reviewed for recoverability at each reporting period end and impaired if not forecast to be recoverable

(4) Represents non-cash charges related to the impairment of property, plant and equipment, intangible assets excluding Goodwill and related prepaid land rent on the decommissioning of sites

(5) Represents credits and expense related to share-based compensation, which vary from period to period depending on timing of awards and changes to valuation inputs assumptions

(6) Represents insurance claims included as non-operating income

(7) Other costs may include aborted transaction costs; redundancy costs; acquisition start-up costs; site safety, structural integrity and compliance review costs; one-off professional and consultancy fees related to financing and/or restrictions placed on bank accounts; SOX and/or IFRS 16 implementation costs; consultancy, facility set up and other related expenses for the Group's finance transformation program; and escrow amounts received relating to the IHS Towers NG Limited acquisition

(8) Other income may include remeasurement of contingent consideration liability related to business combinations; one-off termination fees received from customers; and tax indemnity receipt from a seller relating to a prior acquisition

(9) Adjusted EBITDA is a measure not presented in accordance with IFRS

(10) See definition of LTM Pro Forma Adjusted EBITDA for an explanation of Adjustments Related to Acquisitions/Dispositions

(1) Re-presented to reflect an adjustment related to the accounting treatment of foreign exchange on goods in transit in Nigeria
(2) Withholding tax primarily includes amounts withheld by customers and amounts paid on bond interest in Nigeria which is paid to the local tax authority. The amounts withheld by customers may be recoverable through an offset against future corporate income tax liabilities in the relevant operating company
(3) Represents the aggregate value of interest paid and interest income received
(4) Other costs may include aborted transaction costs; redundancy costs; acquisition start-up costs; site safety, structural integrity and compliance review costs; one-off professional and consultancy fees related to financing and/or restrictions placed on bank accounts; SOX and/or IFRS 16 implementation costs; consultancy, facility set up and other related expenses for the Group's finance transformation program; and escrow amounts received relating to the IHS Towers NG Limited acquisition
(5) Other income may include remeasurement of contingent consideration liability related to business combinations; one-off termination fees received from customers; and tax indemnity receipt from a seller relating to a prior acquisition
(6) We incur capital expenditures in relation to the maintenance of our towers and fiber equipment, which is non- discretionary in nature and required in order to optimally run our portfolio and to perform in line with our service level agreements with customers. Maintenance capital expenditures includes the periodic repair, refurbishment and replacement of tower, fiber equipment and power equipment at existing sites to keep such assets in service
(7) Corporate capital expenditures, which are non-discretionary in nature, consist primarily of routine spending on information technology infrastructure
(8) Adjusted Levered Free Cash Flow is a measure not presented in accordance with IFRS. Starting in 3Q23, we replaced “Recurring Leveraged Free Cash Flow” (RLFCF) with “Adjusted Levered Free Cash Flow” (ALFCF). As a result, we have re-presented the 1Q22-2Q23 measures to be on a consistent basis with the ALFCF presented for the subsequent periods

(1) MTN South Africa acquisition closed in 2Q22

GLOSSARY OF TERMS

Adjusted EBITDA (including by segment): income/(loss) for the period, before income tax expense/(benefit), finance costs and income, depreciation and amortization, impairment of withholding tax receivables, impairment of goodwill, business combination transaction costs, impairment of property, plant and equipment, intangible assets excluding goodwill and related prepaid land rent, reversal of provision for decommissioning costs, net (gain)/loss on sale of assets, share-based payment (credit)/expense, insurance claims and certain other items that management believes are not indicative of the core performance of our business.

Adjusted EBITDA Margin: Adjusted EBITDA divided by revenue for the applicable period, expressed as a percentage.

Adjusted Levered Free Cash Flow (“ALFCF”): cash from operations, before certain items of income or expenditure that management believes are not indicative of the core cash flow of our business (to the extent that these items of income and expenditure are included within cash flow from operating activities), and after taking into account net working capital movements, income taxes paid, withholding tax, lease and rent payments made, net interest paid or received, business combination transaction costs, maintenance capital expenditure, and routine corporate capital expenditure. We believe that it is important to measure the free cash flows we have generated from operations, after accounting for the cash cost of funding and routine capital expenditure required to generate those cash flows. Starting in the third quarter of 2023, we replaced RLFCF with ALFCF. ALFCF, unlike RLFCF, only includes the cash costs of business combination transaction costs, other costs and other income and excludes the reversal of movements in the net loss allowance on trade receivables and impairment of inventory to better reflect the liquidity position in each period. There is otherwise no change in the definition or calculation of this metric for the periods presented as a result of the name change.

Adjusted Levered Free Cash Flow Cash Conversion Rate: Adjusted Levered Free Cash Flow divided by Adjusted EBITDA, expressed as a percentage.

Colocation Rate: Refers to the average number of Tenants per Tower across our portfolio at a given point in time. We calculate the Colocation Rate by dividing the total number of Tenants across our portfolio by the total number of Towers across our portfolio at a given time.

Consolidated Net Leverage: The sum, expressed in U.S. dollars, of the aggregate outstanding indebtedness of IHS Holding Limited and its restricted subsidiaries on a consolidated basis.

Consolidated Net Leverage Ratio: Ratio of consolidated net leverage to Consolidated EBITDA for the most recently ended four consecutive fiscal quarters, as further adjusted for acquisitions and dispositions based on the requirements of the indentures governing our outstanding Senior Notes. The amounts calculated in respect of Consolidated EBITDA (as defined in the indentures relating to our Senior Notes) are aligned with amounts calculated under Adjusted EBITDA, as defined above.

Gross Debt: Borrowings as stated on the statement of financial position plus lease liabilities as stated on the statement of financial position.

Group: IHS Holding Limited and each of its direct and indirect subsidiaries.

Inorganic Revenue: Inorganic revenue captures the impact on revenue from existing Tenants of new tower portfolios or businesses that we have acquired since the beginning of the prior period (except as described in the organic revenue). Where tower portfolios or businesses were acquired during the current period under review, inorganic revenue is calculated as the revenue contribution from those acquisitions in their “at acquisition” state (measured as the local currency revenue generated during the first full month following the acquisition) in the current period. This treatment continues for 12 months following acquisition.

Latam: Refers to our business segment that includes our markets in Latin America, which currently are Brazil and Colombia.

Lease Amendments: Refers to the installation of additional equipment on a site or the provision of certain ancillary services for an existing Tenant, for which we charge our customers a recurring lease fee.

LTM Adjusted EBITDA: Adjusted EBITDA for the most recently ended four consecutive fiscal quarters.

GLOSSARY OF TERMS

LTM Pro Forma Adjusted EBITDA: Adjusted EBITDA for the applicable four consecutive fiscal quarters as further adjusted to give pro forma effect (as determined in good faith by management and may, with respect to acquisitions, include anticipated cost synergies and expense and cost reductions) to any acquisitions or dispositions made in such period as if such acquisitions or dispositions had been completed on the first day of such period, based on the requirements of the indentures governing our outstanding Senior Notes, which are filed with the SEC as exhibits to our Annual Report on Form 20-F for the year ended December 31, 2023, filed March 12, 2024 ("Adjustments Related to Acquisitions/Dispositions").

MENA: Refers to our business segment that includes our markets in the Middle East and North Africa region, which currently are Egypt and Kuwait.

Net Debt: Gross debt less cash and cash equivalents at a stated statement of financial position date.

Organic Revenue: Organic revenue captures the performance of our existing business without the impact of new tower portfolios or businesses acquired since the beginning of the prior year period (except as described in the inorganic revenue). Specifically, organic revenue captures the impact of (i) new Colocation and Lease Amendments; (ii) changes in pricing including from contractual lease fee escalation, power indexation and foreign exchange resets; (iii) new site construction, (iv) fiber connectivity and (v) any impact of Churn and decommissioning. In the case of an acquisition of new tower portfolios or businesses, the impact of any incremental revenue after the date of acquisition from new colocation and Lease Amendments or changes in pricing on the Towers acquired, including from contractual lease fee escalation and foreign exchange resets, is also captured within organic revenue.

Senior Notes: The (a) 8.000% Senior Notes due 2027 issued by IHS Netherlands Holdco B.V., (b) 5.625% Senior Notes due 2026 issued by IHS Holding Limited and (c) 6.250% Senior Notes due 2028 issued by IHS Holding Limited, issued pursuant to indentures which are filed with the SEC as exhibits to our Annual Report on Form 20-F for the year ended December 31, 2023, filed March 12, 2024.

SSA: Refers to our business segment that includes our markets in the sub-Saharan region of Africa, which currently are Cameroon, Cote d'Ivoire, Rwanda, South Africa and Zambia.

Tenants: Refers to the number of distinct customers who have leased space on each Tower across our portfolio. For example, if one customer had leased tower space on five of our Towers, we would have five tenants.

Towers: Refers to ground-based towers, rooftop and wall-mounted towers, cell poles, in-building solutions, small cells, distributed antenna systems and cells-on-wheels, each of which is deployed to support wireless transmission equipment. We measure the number of Towers in our portfolio at a given time by counting the number of Towers that we own or operate with at least one Tenant. The number of Towers in our portfolio excludes any towers for which we provide managed services.
