

## GROUP ENVIRONMENTAL POLICY

IHS Towers (IHS Holding Limited and its subsidiaries) recognizes the importance of environmental protection and is committed to operating its business responsibly and in fulfilment of its compliance obligations related to the design, construction and operation of communications infrastructure.

We are committed to reducing our fuel consumption, energy use and greenhouse gas (GHG) emissions, as well as reducing waste and e-waste, and minimizing any negative impacts our operations may have on the environment.

We aim to achieve this by:

- Following all applicable environmental regulations and ISO 14001: 2015 requirements
- Providing adequate training and resources to implement this Policy
- Improving our energy efficiency and reducing our GHG emissions
- Reducing pollution
- Protecting biodiversity and ecosystems
- Minimizing waste and increasing material recovery for re-use and recycling
- Safely disposing of any substances that may cause harm to the environment
- Ensuring that the environment is considered when sourcing goods and services
- Establishing annual KPI's and committing to continual improvement
- Engaging with relevant stakeholders on environmental matters when necessary
- Reporting publicly on our environmental performance in our annual sustainability report

This Policy applies to all IHS Employees and Property. It is communicated to all employees and made available to other interested parties.
